

SECUREMME

PRODUCTION TOTAL CONTROL, FROM DESIGN TO SINGLE COMPONENT PRODUCTION AND ASSEMBLING

Production NON-STOP supervision

SECUREMME was born in 1967 and nowadays is controlled by the second generation of the Malighetti family. They are specialized in producing safety door locks and accessories.

SECUREMME is constantly committed in developing new Customer tailored solutions, in facing the continuous changes of the market both from the requests evolution and the competitor growth points of view.

Consequently, the product design becomes a vital step and, together with new materials and the high-tech industrial plants, allows to create innovative, practical, safe and reliable products.

The Company President, Mr. Marco Malighetti, decided to automate the "finished product" warehouse by inserting 3 Zecchetti Automated Warehouses thus recovering the 80% of the space previously dedicated to the warehouse handled by just two operators versus the previous seven.
